

GREYHOUND

Breeding, Race Injury and Retirement

Quarterly Report

October to December
2023

1. Overview

The data are derived from the *OzChase* system, on-track veterinarian and race-day stewards' reports. Information is the property of the Department of Natural Resources and Environment Tasmania - Office of Racing Integrity (ORI) and is relevant to Tasmanian greyhound racing activities.

The following information is provided as a routine disclosure:

1. Statistics on greyhound pups whelped and named as reported by owners and recorded by ORI.
2. Statistics on injuries occurring to racing greyhounds at race meetings held in Tasmania during the reporting period. The race-related injury data are sourced from on-track veterinarians' and stewards' reports, and *OzChase* system reports.
3. Statistics on death/euthanasia of racing greyhounds because of injuries received at race meetings held in Tasmania during the reporting period. This includes greyhounds injured in races, who received off site treatment and assessment but were subsequently euthanised within a 14-day period from the date of injury. The data is sourced from on-track veterinarians' and stewards' reports, and *OzChase* system reports.
4. Greyhound retirement notifications (including deaths) as reported by greyhound owners to ORI and held in *OzChase* as at reporting date.

2. Greyhound pups born (whelped) and named from October 2023 to December 2023

During the period October 2023 to December 2023, there were 30 greyhound pups born (whelped) (Table 1) and 59 greyhounds named (Table 2) in Tasmania. Greyhounds are generally named for racing at between 12 and 18 months of age, creating a delay between whelping and naming.

Table 1. Greyhound pups born (whelped) during the period October 2023 to December 2023.

Month	Greyhounds Whelped
October 2023	3
November 2023	27
December 2023	0
Q2 Total	30

Table 2. Greyhounds named during the period October 2023 to December 2023.

Month	Greyhounds Named
October 2023	11
November 2023	28
December 2023	20
Q2 Total	59

3. Injury Categories

3.1. Injury Severity Classification

Greyhounds injured or involved in incidents at Tasmanian race meetings are examined by on-track veterinarians. These incidents and actions are reported to the ORI and included in the stewards' reports for each race meeting.

Injuries vary from very minor incidents with no treatment or incapacitation (stand down) period required to severe injuries that result in the death or required euthanasia of a greyhound. Mandatory stand down periods allow for injury recovery before a greyhound is permitted to race again.

4. Total reported injuries to racing greyhounds from October 2023 to December 2023

Injury rates are standardised as injuries per 1,000 starts. Every greyhound is counted each time it races in the reporting period to standardise injuries per 1,000 starts. During the period October 2023 to December 2023, there were 38 greyhound race meetings held at Tasmanian venues. At these race meetings, there were a total of 2694 starters.

Caveat: Injury report figures provided in the April – June 2023 report were based on a percentage formula. In this report and all reports to follow, these will be based on incidents per 1,000 starters formula.

Table 3. Total greyhound racing injuries as reported at Tasmanian race meetings from October 2023 to December 2023.

Injury Category	Incapacitation Period	Number of Incidents	Incidents per 1,000 Starters (2694 for period)

Category D (F)	29 days & over	8	2.97
Category E (F)	Deceased or Euthanised	0	0.00
Total Injuries		71	26.35

4.1. Reported greyhound racing-related deaths from October 2023 to December 2023

Racing fatalities are defined as deaths that occur because of injuries and/or incidents during or immediately following a race (on track). These include injuries that resulted in the euthanasia of greyhounds at a race meeting. The data does not include euthanasia that may occur subsequent to race meetings when further diagnostic advice or treatment is sought.

6. Greyhounds reported as retired, deceased, or euthanised during October 2023 to December 2023

Greyhounds that are retired from racing, rehomed, or euthanised are recorded in the OzChase database. These notifications are self-reported by owners to the ORI. The last registered owner of the greyhound must submit a notification of retirement, death or euthanasia as specified by Greyhounds Australasia Rule 22.

Caveats

- Reports of retirements from *OzChase* may vary over time for the same data set due to late lodgment of retirement notifications.
- Data for greyhounds retired to adoption programs other than the GAP are currently not available unless provided by owners in the greyhound's retirement notification.

Table 6. Greyhound mortality notifications from October 2023 to December 2023 including data contained in Table 5, as reported to ORI by owners. The data in this section is categorised based on the information provided to ORI by participants.
