RACE 1 – LADBROKES BLACKBOOK STAKES – 2200m Mobile

DUCANE – Led the event, only to give ground over the concluding stages, beaten in excess of 70 metres. A routine post-race Veterinary examination found no obvious indicators which may help explain the below par performance. On questioning, connections were at a loss to explain the performance, indicating the gelding had worked well since its last performance. Further, connections indicated they would have DUCANE examined by their Veterinary Surgeon, including having blood work done. Stewards accepted the undertakings of connections, taking no action other than to note the circumstances and to instruct the connections that should anything come to light which may help explain the performance they were to notify the Offices of Racing Integrity Stewards at their earliest convenience.

Stewards gave the benefit of the doubt on this occasion however reminded driver Hillier of his obligations in having his drive on the gate until the start is effected, suggesting that when drawn wide he needs to be in position early in the score-up.

Supplementary Report: Hobart Friday 29th November, 2024 – Race 4 NANCYS HOPE

Connections of NANCYS HOPE contacted Stewards reporting they had had the mare examined by their Veterinary Surgeon after performing so poorly. The examination, which included scans, showed NANCYS HOPE was badly in season, with other clinical issues detected. Connections although originally felt a spell would be in the best interest of the mare, the Veterinary advice was to give her a light week, but return her to full work shortly after. Connections will act under the Veterinary advice, however, will monitor NANCYS HOPE's progress, and will not nominate the mare until confident she can perform in the required manner.
